IoT Sigfox Thermometer mit int. Sensor

Order number: W23-500-010   Series/Model: W0810

IoT Sigfox Thermometer Temperature transducer with int. Sensor

Main Features

- **Sigfox connection for 1 year**
- **Comet Cloud for 1 year (version for testing)**
- **Temperature range from -30 to + 60 ° C**
- **Accuracy: ± 0.4 ° C**
- **Resolution: 0.1 ° C**
- **Protection class: IP65**
- **Batterie powered**
- **Traceable calibration certificate (according to the EN ISO / IEC 17025 standard) Included**
- **Warranty 3 years**

The instrument measures temperature from built-in internal sensor. It features a simple, compact design and is positioned directly in the measured area. Measured values are displayed on the display and are regularly sent, in an adjustable time interval (10 min to 24 h), by radio transmission in Sigfox to Comet Cloud.

The device includes Traceable calibration certificate with declared metrological traceability of etalons is based on requirements of EN ISO/IEC 17025 standard.

Applications:

- IT and server rooms
- Telecommunications systems
- Technical infrastructure rooms
- Warehouses and houses
- Agri-crops, plant breeding, greenhouses
- Fabrication Halls and Buildings
- Museums, archives, galleries, exhibitions
- Air-conditioned rooms in general
- Weather stations
